

New for '09:

P400-D

ULV & Low-Volume skid-mount, diesel-powered sprayer

Young Orchards & Groves | Psyllid Control | Nursery

Manufactured with pride in the USA by Curtec of Florida

TRUE ULV performance- Proptec atomizers reliably spray as low as 2 gallons per acre- even with wettables, nutritionals & difficult materials!

Infinitely adjustable Accustaltic™ chemical metering pump allows you to go from ULV to standard rates with the push of a button, never loses prime, & precisely meters the correct flow to each head.

Incredible productivity: skid mounted for high speed truck spraying- spray at 10 MPH or more- productivity approaching *50 acres per hour*.
